

Safeguarding Hub (MASH)

## **Southwark Multi-Agency Risk Assessment and Referral Pathway**

All professionals to consider FGM at every interaction

- Do you or your partner come from a community where cutting or female circumcision is practised?
- Have you been cut?

## No FGM -If YES **Give Health Promotion Advice Undertake Safeguarding FGM Risk Assessment** Leaflet. using: Woman/Man informed of legal Dept of Health FGM Risk Assessment Guidance May 2016 implications of FGM No Further action. Document in notes. **FGM Identified -Review ongoing risk assessments Give Health Promotion Advice Leaflet.** Reinforce advice about the legal Woman/Man informed of legal implications implications of FGM **Document in notes** Document in notes. Is there a risk of harm in relation to Seek advice from: FGM? Your services safeguarding FGM lead Are there children who are potentially at **Multi- Agency Safeguarding Hub** risk of FGM? **Children's Social Services** Police - CAIT Are other children in family/ close friends who might be at risk? If a child is at risk of or has had FGM If a child discloses they have had FGM or they are make a referral to Multi Agency

You should attempt to use an interpreter whose values on FGM are known when talking to the family. Do NOT use family members.

If you think the child/young person is at immediate risk and speaking with the family will increase the risk, then refer to Children's Social Care or call 999 if the child is in imminent danger.

visually identified as having had FGM, report to

Police 101 within 48 hours
